

PAPER CUPS ON A BENDER

With the recent divestment of its napkin and table top business, Benders has relaunched the business as the Benders Paper Cup Company with a new logo and a newly consolidated position as Europe's largest dedicated paper cup manufacturer, based in the UK.

As part of its commitment to the environment, the company not only makes all paper cups in the UK using ethically sourced raw materials from sustainable, managed forests, but where possible, manages the

impact of its business by sourcing and supplying locally.

"With one of the largest ranges of unique products in the market, we can support the needs of every type of customer from the smallest to the very largest," said Andy Cunliffe, Benders' MD.
