

PLA lined paper vending cups from Benders

In line with the growing environmental awareness within the industry, Benders offers a complete range of PLA lined compostable vending cups derived from managed renewable resources.

"Due to consumer and vending operator concerns alike, we have been able to respond by offering a full range of environmentally considerate PLA lined vending cups manufactured here the UK. These vending cups continue to provide trouble free vending and are available in one of our contemporary designs, Verona, which has also helped see a shift in demand towards these types of vending cups in the market," Ian Keeffe, vending account manager commented.

Benders' Verona designed, PLA lined compostable vending cups are available in 6oz, 7oz tall, 7oz squat and 9oz tall sizes.

As part of its commitment to the environment, Benders Paper Cup Company not only makes all paper cups in the UK using ethically sourced raw materials

from sustainable, managed forests, but is also an active member of the Paper Cup Recovery & Recycling Group.
