AVS extends deal with Benders for two more years

Associated Vending Services, AVS, comprising 27 independently owned professional vending businesses, has extended its contract with Benders Paper Cup Company for the supply of paper vending and hot cups for a further two years.

Benders vending sector manager Ian Keeffe commented, "Benders is thrilled to be the awarded supplier to AVS for a further two years. We have enjoyed working with all of the members over the past three years, and with the growth in paper cups in the vending sector more evident, we look forward to mutual growth with all the AVS membership.

"It's not just our supply of vending cups that has added value to the AVS offering, but the availability of a wide range of prints and designs, giving a bespoke image on a wide range of cups. I look forward to developing these concepts further in the months ahead."

Brian Tustain, AVS Chief Executive commented, "We are delighted to be able to extend our purchasing agreement with Benders at this time. Their ability to produce the highest quality range of paper cups, which consumers are responding to very positively through their use in vending and dispensing equipment, has helped raise operator profit potentials. Also, their design and print service for relatively small runs of cups has enabled new and interesting marketing initiatives and opportunities with our clients."

Benders vending cups are available in 6oz, 7oz Tall, 7oz Squat, 9oz Tall and 12oz sizes or in a range of compostable PLA cups.

As part of Benders' on-going commitment to the environment, it works closely with suppliers to ensure all cups are sourced from PEFC/FSC Certified forests.
