Today's informed coffee drinkers are as aware of the design of their cup as of the quality of their coffee.

The demands of today's coffee consumer continue to grow as they seek more and better coffee. And with Benders new Latina design premium hot cups you can deliver the quality drinking experience sought by discerning consumers.

The rich colours and easy styling of the new Latina design works well in all high street outlets and perfectly compliment the delivery and service of quality coffee and tea beverages. The Latina design is available in a full range of sizes and accompanying lids. All cups can be custom printed to extend branding and personalisation.
